Response to Amendment

The reply filed on 7/29/04 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): Applicant has not selected species as to: (1) type of kinase; (2) peptides comprising a single non-degenerate phosphorylatable amino acid in a fixed position that is Tyr, Ser, or Thr; and (3) a single value for n and a single value for m for peptides of the formula: (Xaa)_n-Zaa-(Xaa). Furthermore, in applicant's amendments to the claims filed 7/29/04, applicant filed new claims 66-75 that further recite new species, namely wherein Xaa is any amino acid except Ser, or wherein Xaa is any amino acid except Ser or Cys, or wherein Xaa is any amino acid except Ser, Cys or Trp. Applicant must also elect a single species as to Xaa in claims 66-75. Applicant is reminded that a reply to the previous Requirement for Election/Restriction, mailed 6/25/2004, must include identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. See 37 CFR 1.111.

Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
